## UPCOMING TRAINING OPPORTUNITIES

### Police Accredited Training Online (PATROL Online) Update December Topic: Civil Standbys

This course will work to build an officer's understanding of what "civil matters" are, what their role should be, and offer some tips and ideas for addressing what has become a legal tightrope for law enforcement officers. The course will look at three fairly typical situations: repossessions, child custody disputes, and landlord-tenant disputes. The lessons officers learn in these situations can be applied to other circumstances as well.

PATROL is a powerful learning tool for Minnesota law enforcement agencies. Through PATROL, agencies have access to extensive web-based courses on current legal issues, and research on important developments impacting Minnesota law enforcement. PATROL can be accessed at any time from any internet connect. Each month a new 60 minute continuing education course is available to officers and deputies. Upon successful completion, one POST credit is earned toward continuing education credits. In addition, PATROL delivers courses on use of force and deadly force to help law enforcement agencies meet POST mandates, and courses on blood borne pathogens and hazmat to help agencies meet OSHA standards. For 2012, PATROL will also make available courses on Employee Right To Know and AWAIR. All courses combined, peace officers can earn up to 19 POST credits each year. Contact Laura Honeck, LMCIT Program Coordinator, at [patrol@lmc.org](mailto:patrol@lmc.org) or 651-281-1280 for more information.
